**Gold Rated Suites:** Rental units with this rating have all furnishings and accessories new or near new and in excellent condition. Furnishings are attractive and well-coordinated, represent current design trends, and include top quality kitchens and baths. There is a noticeable upgrade in the furnishings and decor. Accommodations are comfortable, inviting, and reflect current styles.

**Silver Rated Suites:** Rental units are well maintained and most everything is up-to-date with minimal wear. The condo may have some of the features of a higher “Gold” rating but there are some non-major items or areas that need improvement. Furnishings may show slight wear but overall the decor is attractive although not as consistent or well-coordinated as higher rating levels. Kitchens and baths are in good condition and reflect current styles.

**Bronze Rated Suites:** Rental units with this rating are comfortable but have a number of areas that need improvement. Furnishings are generally older, less complete, and do not consistently reflect current decorating trends. We do not recommend the Bronze rated suites. A “Bronze” unit offers a very basic lodging experience.
